### DETAILED ACTION

1. This action is responsive to the amendment filed on 12/11/2006.
2. Claims 1-36, and 40 have been amended.
3. Claims 37-39 and 41 have been cancelled.
4. Claims 1-36 and 40 are allowed.

### EXAMINER'S AMENDMENT

5. An examiner's amendment to the record appear below. Should the change and/or additions be unacceptable to the Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such amendment, it MUST be submitted no later than the payment of issue fee.

Authorization for examiner's amendment was given in a telephone interview with Mr. Kenneth W. Fields Registration No. 52,430 on December 29, 2006, to obviate any potential 35 USC 101 issues and put the claims in condition for allowance. The application has been amended as follows:

#### IN THE CLAIMS:

Claim 40 is amended as follows:

#### Claim 40 (Currently amended)

At line 2, before "medium" insert storage.

At line 2, after "medium" insert including executable instructions.

--End--

*Allowable Subject Matter*

6. The following is an examiner's statement of reasons for allowance:

As applicant pointed out under Remark section, pages 17-20, Inoue (US 5,758,164) does not disclose the following optimization steps:

(1) combining the corresponding machine language instruction of the first intermediate code in the format of the function invocation and the second intermediate code in the format of the machine language instruction into one machine language instruction,

(2) removing redundancy between the corresponding machine language instruction of the first intermediate code in the format of the function invocation and the second intermediate code in the format of the machine language instruction, and

(3) changing an order of the corresponding machine language instruction of the first intermediate code in the format of the function invocation and the second intermediate code in the format of the machine language instruction as recited in independent claims 1 and 40

Prior arts of record do not teach and/or suggest these claimed limitations, thus, all remaining pending claims 1-36 and 40 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
